The Retirement Plans

Alternate Retirement Program (ARP) is a defined contribution plan. It is based on employee/employer contributions and investment performance of the account. The plan is employee-directed via a menu of mutual funds. Benefit form is flexible and can be paid by lump sum, periodic, or monthly payments.

State Employees Retirement System (SERS) Tier II or Tier IIA is a defined benefit plan. It is based on a formula that takes into account years of service, age, and average salary. The plan is professionally managed. Benefit form is in the form of a lifetime monthly benefit.

State Employees Retirement System (SERS) Hybrid Plan is a defined benefit plan. Designed similar to Tier II /IIA. However, the benefit form can be taken in one of two options; a lifetime monthly benefit or a one-time lump sum “cash out” option.

Impact Of SEBAC 2011

For employees retiring effective 7/1/2022 the rules for normal retirement age will change.

The SEBAC 2011 agreement included a provision for an irrevocable option to allow members to grandfather their normal retirement age by paying full actuarial cost for this benefit.

If you make the election to transfer from the ARP plan to the SERS or Hybrid plans, you will be given an opportunity to grandfather the current normal retirement age.
